[The money-back guarantee causes people to buy with confidence.] Ebooks means that people print up their own books via computer or they read them on their computer monitor screen.

Let's get started. Go to <http://wellmakeit.com>  
Home page "Join Now" OR

Go to <http://clickbank.com>

At the very TOP of the page, find and CLICK "SIGN UP". Make sure, before you begin selling ANY product over the internet, which is what you will be doing here, that you have an email address. Therefore, do that first if you don't have an email address, or don't really know how to access you own emails.

1)Go to <http://gmail.com>

You really want a gmail address because you don't get all of those advertisements in your email. It flushes out spam email as well. And it's free. It can handle attachments whereas a lot of free email services do not allow large attachments. Believe me, if you want to make money over the internet, PEOPLE HAVE TO BE ABLE TO SEND YOU INFORMATION! Not having information is what causes the darkness of being broke or living paycheck to paycheck. (I write books on this stuff. I know.) Many professionals use gmail. People send money via email too. When people pay you through Clickbank using Paypal, you will be notified through your email of a payment for you within SECONDS. Choose a professional, clean-sounding email address please.

2)Go back to <http://clickbank.com>

At the very TOP of the page, find and CLICK "SIGN UP". You will be asked to enter traditional information such as "Payee name" which is to whom checks will be addressed. Please CORRECTLY SPELL EVERYTHING.

Later on, you will be asked to provide your first name in one blank and last name in another blank. (Each blank box is called a "field".)

You are required to put a phone number with area code, address with correct zip code, etc.

**MOST IMPORTANTLY**, give a 6 to 10 letters or numbers **NICKNAME**. You make this up yourself. Make sure that it is not a nickname that sounds **DARK** in **CHARACTER**. People will see your nickname. You don't want a total stranger getting the wrong idea about you and switching to someone that has a more morally-bound nickname. That is how you will be known on Clickbank. You must press "I agree" to their Terms and Conditions. Press "Submit".

**Clickbank will instantly send you a confirmation to your email address once your nickname goes through successfully after you enter all required information and press "submit". KEEP THAT EMAIL. COPY THE CODE THEY SEND YOU: IT IS YOUR CLICKBANK PASSWORD. Don't let anyone else have it. It is your passport to getting paid! [With your password, someone can easily go in and change your address, etc.] Just click on the link that comes in the email. (This is just to confirm that you are a human being and not one of the programs that people use to go around and do things like that. Many companies have to do this these days.) Once you click on the link, you will INSTANTLY be taken back to Clickbank.com to Log In using your NEW AND VERIFIED nickname and password. Login.**

Now, you are in the system.

I am one of the vendors on Clickbank.com. My nickname is "wellmakeit".

Now, to begin selling, you will need to look at the very tip top of the page and press "Marketplace". All this means is that it is sort of like a grocery store or market and you are selling merchandise.

You will see a field called, "Keyword". Type in wellmakeit

Then press the green "Go" button.

My books will show up.

Decide which book(s) you want to promote.

Just press "Create Hoplink". A screen will pop up saying "Affiliate program: Promote products for 'Wellmakeit'"

Simply type in your nickname and then press "Create".

Their system will automatically create you a FREE domain name, in other words a FREE website. That is the first <http://> address that it generates. Each website promotes a different book. You are now an affiliate and can sell WORLD WIDE. If you have your own website already, simply use the second "hoplink" url. Put it on your website so that people can sell my books under you !

You can track your sales, etc. for free at <http://clickbank.com> there is tons of information, "Help" ,etc.

If you have any questions regarding sign up, or general questions call Clickbank toll free...Their website has an excellent Affiliate help section too.

**1-800-390-6035**

Feel free to contact Sheri Fortune through her website at

<http://wellmakeit.com>

[Email me through it. Put "I am an affiliate" in the subject line please. I get lots of spam email.](mailto:sherifortune@wellmakeit.com)

**The last 2 pages is a flyer that you can copy to hand out. (At a computer, just print out several copies of that one page.) Put in your *clickbank.com* domain name where**

**indicated so that people can buy from you. Use the Black and White flyer if the printer is only in black and white as most libraries use B/W.**

**If your potential customers have questions, or if you have questions about the ebook series, call me, Sheri Fortune (540)446-5861. We work from home. I will give you all the support I can so that we can make some \$\$\$.** Should you meet a program coordinator, for example an x-offender coordinator, and they will only buy paperback, regular bound books, call me **DIRECTLY!** I want to work with you and tell you about that commission structure.

**To help you out some more, I am enclosing a description of this book, especially the business/fundraising/non-profit section. It gets into the personal part as well. Keep this on you at all times. I will also have it on your personal selling web page. The goal is to get a lot of peoples' questions answered up front.**

Many businesses are failing when they really don't have to! The ideas presented are based upon my years of being in different industries. I questioned, "What am I supposed to do with this knowledge?" The answer: "Write it." Many of these ideas will help keep "bread and butter" money in large as well as smaller businesses. These ideas are for the seasoned very wealthy business owners, executives, and managers to the person starting out at the kitchen table. Lie number 1: It takes a lot of money to make money! You will receive strategies and plans that won't make you spend a bunch of money. Learn **secrets** not taught in colleges nor high schools to surviving and then thriving in this economy. 01/24/09 5:41 pm, 04/26/09 9:22am.

**Let's set the record straight: All of the Marketing textbooks for business colleges and universities that I have ever seen were written with a good, sound economy in mind. Not a 2009 economy!** I'll never forget how when I was getting my Bachelor's and additional certificate, I was questioning in my mind, "But what about if the economy did such and such and conditions were not as favorable as now?" and other related thoughts. **Those textbooks were also written with assumptions as the backdrop of their "sustainable" marketing efforts and economies.**

Because of people owning businesses, being executives, managers, or just trying to be indispensable employees along with

having children, the books are easy-to-use and easy-to-read such that once you leave class, you will use the materials often. I am constantly bringing in the most up-to-date information I have available. With these classes and materials that accompany these classes, you are getting the benefit of 10+ years of research and experience. Soak it all in!

By the way, in my other career, I was a public school teacher and was so concerned about the parents experiencing things that took their money, and they had no idea what to do about it. I love to see people prosper in a lasting way; and deeply believe that when I help you prosper in a lasting way, that it causes me to prosper in the same manner. Reciprocal action opportunities literally end up in your lap!

### Special Dedication and Thanks

Thanks to my husband. Without his support, I would never have been able to do this series. I love you and I love our kids.

-Mrs. Sheri Fortune

At exactly 1:00 am, 03/11/09, I received the idea to make this a step-by-step, Day-by-Day, do-it-yourself guide for busy business owners who may work all day. Some of these activities may take as few as 2 hours per day, but all are intense and will deliver power to you. The class will be enjoyable, motivational, but it is intense as it prepares you for an entire business being Recession-Proofed. This is NOT the standard "be a better \_\_\_\_\_, or \_\_\_\_\_" that you can buy via the internet.

## **Course description**

This course is for the wealthy, indigent (not many financial assets), laid-off person seeking employment, X-Offenders (and those currently serving time), the middle class, non-profits and underemployed individuals. Great for American military families worldwide and non-military too! With this power-packed course, you will

- learn how to virtually recession-proof their business(es) across various market sectors by following this 60 day plan

- learn various, effective, low cost sustainable marketing strategies that yield long-term results (NOT the lower the price and give more customer service strategies that everyone is using as something cut from the same idea book)
- learn intricate marketing strategies that could turn a multi-million dollar business around (also effective for larger and smaller businesses)
- learn how to turn their present business around, or to change it, whichever serves them best
- learn to reduce monthly, daily and weekly fixed expenses economically in ways that won't strain your budget
- learn methods of tackling intangibles that may be bleeding them dry including marriages and family relationships that are under tremendous strain with this economy. (There is the huge lie in this country that if a person is going through huge personal problems that they should still be able make optimum business decisions. When your subconscious is handling a potential divorce or adult or younger children issues, or financial chaos, that energy is zapped from destroying the recession ripping through your business. The business becomes a sitting duck for anything negative!)
- learn assumptions which led to this recession in the first place to prevent that line from repeating itself within your company!
- learn to virtually eradicate jealousies (even the ones you can't see) from the ranks as it makes your business a recession target.
- learn from speakers who are experts in their fields who will multiply and amplify what is being taught.
- receive answers to dozens of the most dominant questions when entering this recession-era marketplace either as a business owner, potential business owner, or as an employee who wants to be the most valuable employee in the company.
- learn how to put an extra \$10,000-\$18,000 into their pockets per year that may be in addition to other money, that they can use (but must pay back slowly) as well as an additional \$1000-\$3000 (that never has to be repaid). [I have personally done these. Not a grant.]

- learn how to become a Federal and State government contractor. Properly position yourself to receive some of the Economic Stimulus Package.
- learn the critical role that personal credit can play when opening up a business or seeking employment;
- learn how to improve their credit score and decrease their debt without the aid of a debt consolidator nor debt counseling; how having good credit can help you earn money.
- Receive 30+ books including: 1)Recession-Proof Your Business: The Forgotten Market; 2)Steps to Starting Your Own Business and Strategies in Seeking Employment (Sometimes the Tools Are the Same and Can Be Effective in Both Areas) all included in the Income book; 3)How to Become a Federal Government Contractor with Barely Any Paperwork; 4)Credit Score Increasing and Debt Reduction (includes debts, collections, etc.) 5)How to Talk or Write Someone to Get Benefits for You and Your Family 6)Legal- Rights Many Struggling People Don't Know About (Including owing people money, court room, library research, identity theft, getting your own attorney, etc.); and, 7)Index Pages- assist you in solving many problems. [They facilitate the conversation between you and government as well as private entities.] 8)**Recession-Proof Your Life series which covers the 30 areas that CAUSE people to lose money and ways to combat the losses...even if they are multi-millionaire\$ or regardless of their economic situation.**
- **This course has the power to drastically improve morale within your company as you, the manager or business owner activate the information learned !**
- Non-business owners who have this information can have far more peace & prosperity and can spread peace and prosperity to their families and job environment!
- Recession-proof Your Life and Business from top to bottom!
